UNIT02. ASSESSABLE ACTIVITIES 01

1. DEADLINE

Deadline: Thursday 22 September at 14:00.

This activity will have a particular evaluation:

- 25% of the grade: initial evaluation when the delivery deadline has passed
- 75% of the grade: **THREE SUBSEQUENT EVALUATIONS ON SURPRISE DATES WITHIN THE FIRST QUARTER** to check the proper use of the tool on a day-to-day basis.

! Attention: Deadline is not extendable. If you do not deliver it in a timely manner, the grade for the activity will be 0.

2. OBSERVATIONS PRIOR TO CARRYING OUT ASSESSABLE TASKS

- The activities must be carried out in the language indicated in each activity. You have to try to do the grammar and spelling well.

! Attention: Failure to comply with these considerations can reduce the grade up to 3 points.

3. EXERCISE 01

Initially, we must create a personal account on the "ClickUp" project management site, www.clickup.com. Once the account is created, we will generate the following scheme to organize ourselves on a personal level (daily class work and errands):

- **Workspace:** we must create a "Workspace" called "My Agenda". Within that "Workspace" we will have the following folders:
 - **SMR folder:** folder that will include elements related to our training cycle (Microcomputer Systems and Networks). It is suggested that you have the following lists:
 - **Deadline:** list with delivery dates of tasks.
 - Each deadline registered on the list must indicate the actual date and a "deadline" date so that it does not notify.
 - They should be marked as done once submissions have been made.
 - **Exams:** list indicating exam dates.
 - **Resources:** list compiling useful resources found on the Internet.
 - **Personal Folder:** folder for our personal organization. The following lists are proposed:
 - **Errands:** list with personal errands to be carried out.
- **For the initial evaluation,** we must update the data of our "Workspace" with the current data of the different modules of the training cycle.
- **For the following evaluations,** must be updated to the data of the different modules of the training cycle at the time of the consultation (surprise).

📌 To submit: Demonstration in real time to your teachers of the status of the "Workspace" in each of the requested periods.
